Alternate hot and cold water

Photobiostimulation

ACUA

ACUA, wellness comes from water.

Multifunctional technologically advanced thermal centre with steam bath and scottish shower, chromo and music therapy.

Technical features page 32.

balnea

BALNEA, maximise profits of your cabin.

Balnea, thanks to its 4 removable arches, can easily and swiftly transform into a thermal bed with scented steam bath.

Technical features page 32.

vivaldi

VIVALDI, the pursuit of pure energy.

With an innovative system of loudspeakers it creates and transmits musical harmonic vibrations all over the body, combined with aromatherapy, color therapy and heat.

Technical features page 32.

LYMPHA

LYMPHA, reinterpretation of the hammam marble table.

Innovation is recovering the cultural origins of the wellbeing and adapt them to the contemporary needs of modern society.

Technical features page 33.

designed by **Stefano Pediconi**

Senso

SENSO, the evolution of wellness.

Multifunctional bed with water mattress that minimizes the wave effect during massage, combined with chromotherapy.

Technical features page 33.

Sabbia

SABBIA, like sand baths on the beach.

Quartz sand, warmed up from 32 °C to 40 °C, gives to those lying on, the pleasure of relaxation and benefits of sand baths.

Technical features page 33.

CRYSTALS

CRYSTALS, a breath of Himalayan salt.

The benefits of Halotherapy and full relaxation during treatments lying on natural crystals of Himalayan salt, enhanced by color therapy.

Technical features page 34.

equilibrium

EQUILIBRIUM 3 in 1, pure emotion.

Equilibrium massage bed is supplied 'basic' with water mattress but, thanks to its optional, it offers 3 different spa bed in 1: water mattress, Himalayan Salt or Quartz Sand.

Technical features page 34.

designed by **Stefano Pediconi**

Elysium Link

ELYSIUM LINK, the solution for a complete treatment room.

Elysium link is a comfortable and complete treatment bed that includes a box, a storable stool and a space to place the beauty equipment.

Technical features page 35.

Elysium

ELYSIUM, maximum comfort hanging in the light.

With a stylish and modern design, Elysium gives a high level of comfort and the sensation of floating on colours of the light all surrounded by an emotional atmosphere that involves all the room.

Technical features page 35.

SPOT, decorate with light.

Its simple way to anchoring to the walls and its modular structure allows to make even very large panels of light able to create an embracing atmosphere.

Technical features page 35.

lumina

LUMINA, enrich the treatment room with light.

Lumina is an equipped wall with Plexiglas back-lighted shelves that colors and personalizes the centre.

Technical features page 36.

designed by **Stefano Pediconi**

ca)ido

CALIDO, the multifunctional spa trolley.

It satisfy all the needs – warm and refreshing devices - and creates, at the same time, an unique atmosphere all over the room thanks to chromotherapy.

Technical features page 36.

designed by: **Stefano Pediconi**

AERIUS, bliss of senses and a deep wellbeing.

The luminous element designed to enhance the ceiling, privileged point of view of the guest who is lying on the treatment bed.

Technical features page 36.

 AERIUS

 designed by **Stefano Pediconi**

HIMALAYAN
CUBE

HIMALAYAN CUBE, wellness in
furniture.

Create a regenerating and emotional salt room
with the extreme simplicity of this piece of
furniture.

Technical features page 37.

SALIS

SALIS, the Himalayan salt room.

Modular components for a customized space,
covered by Himalayan salt bricks.

Technical features page 37.

HIMALAYA WALL

HIMALAYA WALL, rejuvenating atmosphere.

Wall made of natural Himalayan salt bricks combined with color therapy.

Technical features page 37.

FLAG

FLAG, chaise longue with sinuous lines.

With Flag everyone can enjoy a state of complete relaxation in colors and light. With heat, massage and music.

Technical features page 38.

note

NOTE, vibro emotional chaise longue.

In addition to heat, music and light, Note offers also harmonic vibrations of music over the entire body for a unique emotional experience.

Technical features page 38.

Arcus

ARCUS, relax as treatment.

The chaise longue Arcus, with its colors and heat offers an unique wellness sensations lying on the air- mattress, even during the relaxation process.

Technical features page 38.

designed by **Stefano Pediconi**

alia

ALIA, for a full relax.

Alia is the relaxing bed for a complete mental and physical relaxation. The heating system and the chromotherapy can combine with quartz, salt or water mattress.

Technical features page 39.

DAISY

DAISY, the versatile desk with a compact design.

The elegant and functional manicure desk completed with an advanced air filtration system.

Technical features page 39.

IRIS, the fine and elegant rack.

The counter to display nail polishes able to fascinate and charm all the customers.

Technical features page 39.

SCIC

SCIC, forever young with photobiostimulation.

Scic is the collagen ceiling module to place over the massage beds or on the wall.

Technical features page 30.

Bella L

BELLA L, the photobiostimulation bed.

The totally natural rejuvenation method which reactivates skin collagen production thanks to the light.

Technical features page 31.

Bella V

BELLA V, a younger, smoother and softer skin.

The photobiosimulation in the vertical unit Bella, uses light to activate the collagen synthesis for an antiaging skin on the body.

Technical features page 31.

Bella Care

BELLA CARE, the photorejuvenation for face.

Photobiostimulation armchair equipped with a comfortable seat that gives a pleasant rejuvenating light experience.

Technical features page 31.

SCIC

The highly versatile photobiostimulation unit

The SCIC collagen unit is a highly versatile appliance in the field of photobiostimulation: thanks to its compact size, it can be positioned either vertically - on a pedestal or wall - or horizontally - on the ceiling - adjustable in height by a remote control, its perfect integration with other services in the same cabin makes it an indispensable element for any modern beauty centre, spa or home fitness area.

Other important advantages:

- it does not occupy a whole cabin
- it can be placed anywhere
- it does not produce heat
- its effects have been scientifically proven
- it requires limited investment
- it is a totally innovative appliance
- it can be used with other treatments

It is also provided with an aroma diffuser.

Depth: 21.5 cm (8.46 in) - Height: 207 cm (80.71 in)

Width (wall and ceiling unit): 55 cm (21.65 in)

Width (pedestal unit): 60 cm (23.6 in)

Weight (depending on the version): from 70 (154.32 lbs) to 75 kg (165.35 lbs)

BELLA L

BELLA L. Forever young with photo-biostimulation

BELLA L is the new apparatus by ISO Italia for photobiostimulation, an innovative technology that gives you a youthful skin all over the body. After 35-40 years your skin starts ageing, horny layer of epidermis gets thicker (outer layer of skin), while the epidermis gets thinner and thinner. It happens because the collagen function of support gradually fades. Result: a partial tissue collapse Skin becomes less tonic and compact ultimately resulting in the formation of wrinkles. Collagen is the most important structural protein among our body's support structures. Collagen is produced by fibroblasts, fundamental cells of connective tissue, which is also located among various skin's cells making a supporting net for the skin. The photobiostimulation uses light to activate the collagen synthesis with the consequent an anti-ageing effect on skin. It is an absolute natural process, based on the fact that our body's cells (included skin), contain light absorbent receptors. Depending on the absorbed light wave length, there are different specific mechanisms of biological feedbacks, just like the ones you find in plants during the chlorophylls photosynthesis. Many scientific studies demonstrate that a selective light at 633nm stimulates a development of cells activity and consequently an increase of collagen production. Perfect result with an natural process. That's the beginning of the photorejuvenation.

Technical characteristics BELLA L

- Anti-glare liquid-crystal display
- Button to select one of 4 exposure times according to skin phototype
- Digital timer and unit counter and mechanical timer
- Electronic variation control of airflow to face and body
- Emergency button
- Hot air expulsion
- Optional: Stereo radio with speakers and headphones with MP3 player.

Depth: 122 cm - Height: 165 cm
Width: 216 cm - Weight: 3000 kg (standard version)

BELLA V

BELLA V is the standing machine for photobiostimulation.

BELLA V is the new ISO ITALIA GROUP equipment for photorejuvenation that allows you to have a youthful and toned skin. BELLA V is equipped with 50 collagen activators lamps emitting selective light at 633nm. It has an essential design with open styling, to avoid unpleasant sensation of claustrophobia, customized with a very original graphics, low power consumptions, easily accessible control console and a wide Anti-glare LCD. BELLA V is the best answer to the most various beauty centres demands.

How BELLA V works

The photobiostimulation uses light to activate the collagen synthesis with the consequent effect of anti-ageing on skin. It's an absolute natural process, based on the fact that our body's cells (included skin), contain light absorbent receptors. Depending on the absorbed light wave length there are different specific mechanisms of biological feedbacks, just like the ones you find in plants during the chlorophylls photosynthesis. Many scientific studies demonstrate that a selective light at 633nm stimulates a development of cells activity and consequently an increase of collagen production. Therefore, the skin is nourished, smoother, younger and more toned. Perfect.

Programs

Bella has specific programs for:

- Cellulitis
- Slimming
- Toning
- Tanning
- Photobiostimulation

Stereo Radio (optional) to top it all, a very pleasant and effective session with astonishing beauty results.

Height: 240 cm - Width: 116 cm closed, 158 cm open
Weight: 340 kg.

BELLA CARE

BELLA CARE photobiostimulation for face and décolleté

BELLA CARE is the new unit by I.SO Italia for photobiostimulation. BELLA CARE is easy to set and use, it has a comfortable seat, and gives to customer a beautiful experience of rejuvenating light. The powerful lamps emitting light at 633nm stimulates the collagen. The photobiostimulation uses light to activate the collagen synthesis with the consequent an anti-ageing effect on skin. It is an absolute natural process, based on the fact that our body's cells (included skin), contain light absorbent receptors. Depending on the absorbed light wave length, there are different specific mechanisms of biological feedbacks. Many scientific studies demonstrate that a selective light at 633nm stimulates a development of cells activity and consequently an increase of collagen production. Perfect result with an natural process. That's the beginning of the photo-rejuvenation.

A younger face

Equipped with 4 high power lamps, activator of collagen, these lamps emits a selective light at 633nm, BELLA CARE is for the photobiostimulation for face and décolleté. Thanks to the essential design with open styling, that avoids unpleasant sensation of claustrophobia, low power consumptions, easily accessible control console, wide anti-glare LCD, BELLA CARE is the best answer to the most various beauty centers demands. In addition to all that, the stereo radio and aroma diffuser - as optional - offers a pleasant and effective session for an ever younger face.

Height: 169 cm - Depth: 151 cm
Width: 112 cm - Weight (standard version): 230 Kg

ACUA

A thermal spa centre for your customers.

ACUA steam bed is a multifunctional tool that offers operators a variety of possibilities in terms of use (steam bath, Scottish shower, massage, chromotherapy and music therapy) thus maximizing the earning power of the cabin.

The steam produced by ACUA can be enriched and aromatized with essential oils. The small canopy guarantees rapid saturation without ever coming into contact with the user's skin and it is lit with the colour chosen in the chromotherapy program selected.

The ACUA Chaise Longue is divided into four parts so that the customer is always stable and never slips down. Furthermore, the back rest can be adjusted electrically. Sturdy and resistant, the marine wood structure can be covered with one of the mats in anti-allergy material supplied.

The Scottish shower in the foldaway bracket produces an immediate change in temperature. There is no dripping at the end of the treatment. Specific protocols of use consent to alternate jets of thermo-regulated hot water and cold water at room temperature. The Scottish shower can even be used during the steam cycle.

Chromotherapy with colour cycles that can be customized and programmed to be coordinated with other functions, such as steam cycles or music therapy. The RGB lights are everywhere; on the base of the bed, on the nozzle support and under the user support surface.

The controls consent to set and monitor all the different functions. As well as already preset protocols, it also, it is also possible to create new, customized ones. The technology used in ACUA is extremely advanced.

ACUA offers an ENDLESS number of treatments; steam baths, mud treatments, stone therapy, algae wraps, clay treatments, gommage exfoliation, savonage treatment, Scottish shower, massages combined with chromotherapy and music therapy and many, many more treatments.

Length: 227,8 (89.7 in) - Height (with shower arm): from 161 cm (63.5 in) to 176 cm (69.4 in)
 Width: 93 cm (36.5 in) - Weight* from 250 kg (550 lbs) to 300 kg (661 lbs)

BALNEA

Multifunctional

Thanks to its multiple functions, BALNEA represents for all the SPAs, wellness and beauty centres, a multifunctional tool able to offer manifold possibilities of use (steam bath, massage, chromotherapy combined with music therapy) to maximize the earning power of the environment where BALNEA is placed. The scented steam bath of BALNEA, assists the operator in the application of oils, sludge, algae and cosmetics optimizing the contact with the skin and their penetration. Through the use of 4 removable simple arches, BALNEA becomes in few seconds, a thermal bed or a bed for massages. If used for massages, BALNEA can be equipped with a water-repellent mattress, or with a water mattress.

The client's worktop, made of marine wood is electrically adjustable to easily change from a horizontal position to a lounger form. Each treatment can be customized with color and music cycles.

BALNEA features an optional electrical lifting system that allows the operator to work at the most comfortable height and permits clients to get on and off the bed easily.

An important LED lighting system creates a pleasant play of lights from the top of the bed to the bottom and under the bed where an elegant tray shelf made of plexiglas serves as a storage shelf.

A thermo regulated tap mixer and a hand shower with recessed water tap, let the operator easily clean the worktops as well as rinsing the client's body at the end of the session. The collection tank is made of steel, easy to maintain and aseptic.

Music and colors of BALNEA can be connected to the other products and accessories of Iso Benessere line to create a unique environment.

Length: 219 cm (86 in) - Height (with arches) from 119 cm (46.7in) to 134 cm (52.6in)
 Width: 93 cm (36.5 in) - Weight* from 250 kg (550 lbs) to 300 kg (661 lbs)

VIVALDI

VIVALDI, rather than a massage bed, is a powerful technology that combines wellbeing harmonic vibrations of music, aroma therapy, chromo therapy and heat. All the essential forms of energy stimulation, for the welfare of the person, enclosed in a single appliance. VIVALDI, with an innovative acoustic speaker system, is able to create a sound emission over the entire body of the user, dividing and alternating tones and frequencies on specific areas, for an emotional experience without equal. The musical vibration, besides a large and intense sensory experience, supports circulation by making it more efficient, helping the drainage of liquids and toxins. VIVALDI creates the best conditions for reducing skin blemishes, favoring a greater absorption of products used during massage. Vivaldi is able to stimulate natural and sensory energies and can be used with holistic applications, crystals, muds, oils and specialty sands. A comfortable and cozy position, makes it extremely pleasant sitting, wrapped in a warm wave that relaxes the muscles and prepares to massage. The music envelops the mind and its vibrations pervade the body with harmonious and rebalancing waves. A face opening allows to benefit from aromatic scents harmonies and deeper emotions. A Chromotherapy restores beneficial energy to the body, both through the eyes and through the skin.

In full relaxation, a session treatment on Vivaldi created a complete physical and mental balance, a strengthening of the physiological functions at all levels, with a deep interaction with our Subtle Energies. The lifting system, allows to adjust the height of the entire positioning device, making it comfortable to use by the customer and at the same time suitable to the needs of each operator. The mattress made of faux leather, with internal heating system, makes VIVALDI elegant, practical for the cleaning and particularly resistant. The temperature control system, bring a maximum body relaxation. All VIVALDI's functions are handled by simple and intuitive commands to make practical and functional treatments.

Length: 205 cm (79.1 in) - Height: from 69 cm to 84 cm
 Width: 80 cm (31.5 in) - Weight: 150 kg (330 lbs)

LYMPHA

Innovation is to rediscover the cultural origins of the wellbeing and adapt them to the contemporary needs of modern society: on these premises, ISO Benessere presents LYMPHA, the reinterpretation of göbektaş, the marble spa-table for traditional Hammam style used during the performance of humid treatments (scrub, savonage, sludge, etc.). Thanks to our technologies, the traditional marble support has become a heated luminous surface where the customer lay on, gently touched by the water.

The concept is related to the Hammam culture, that is not just the Turkish bath very popular in wellness centers, but a path and a ritual of various treatments, alternation of hot and cold temperatures, preparation of the body and mind for emotional and physical experiences.

In addition to its functionality, LYMPHA is a product that enhances the characteristics of the light and color as an integral part of the treatment, involving more and more every single sense of the patient to experience a deep state of wellness.

A water wave complete the massage, caressing the customer's body.

Height: 82 cm (32.3 in) - Length: 226 cm (89 in)
Width: 100 cm (39.4 in) - Weight: 230 kg (506 lbs)

SENSO

The multifunctional massage bed with water mattress

The water-massage bed can be used by operators in many different ways such as massage, relaxation, and photorejuvenation. SENSO is able to maximize the earning power of the cabin thanks to the envelope of the customer in the beneficial embrace of warm water that encourages physical and mental relaxation.

In total comfort, cradled by water. The mattress in anti-allergy plastic material, contains communicating compartments designed to reduce as far as possible the wave effect, leaving only the sensation of being gently cradled by the water. Water temperature, color cycles, music and the optional are electronically controlled at preset or customized values through an easy to use LCD display.

In harmony with colors. The powered lighting colour therapy is evenly distributed throughout the mattress using water as a light diffuser. Lighting creates light points from under the bed to the floor.

Water massage, a delightful extra. Available on request, specially directed jets of water, heat welded to the inside of the mattress offer a delightful massage during treatments.

Collagen function. SENSO is also fitted with an additional electronic control that regulates the 160W collagen neon lamps, which can be activated on demand. Massage bed SENSO can be used in conjunction with SCIC, the collagen photobiostimulation panel, to boost its photo-rejuvenating function.

SENSO can be equipped with an optional electrical lifting system that allows the operator to work at the most comfortable height and permits clients to get on and off the bed with ease.

Length: 211 cm (83.2 in) - Height: from 68.5 cm (27 in) to 83 cm (32.6 in)
Width: 92 cm (36.2 in)
Weight*: from 160 kg (352 lbs) to 223 kg (242 lbs).
With water: 150 kg (491 lbs)

SABBIA

Since ancient times, sand baths have been recognized as having excellent pain-killing and anti-inflammatory effects. Thanks to SABBIA bed, it is possible to combine the properties of warm sand with massages that, by relaxing muscles, help us practice myofascial release and manual stretching, both designed to harmonize posture.

According to its chemical-physical composition, the warm quartz sand heated between 32°C and 40°C - has a purifying, disinfectant and alkalizing action and relaxes muscles, bones and joints. Under the steel tub that contains the sand, there is a perfect safety and efficient coating system. The temperature reached by the heating membrane creates a dry environment that prevents the formation of moulds and bacteria, maintaining constant sanitation.

A massage on the sand

SABBIA offers three great advantages for final users:

- the small grains of quartz sand perform a constant micro-massage
- the sand adapts to the shape of the body providing a perfect resting surface, with the best distribution of body weight
- the temperature of the sand relaxes muscle and nervous tension, preparing the body in the best way possible to any kind of massage treatment.

When table is used for frequently massages, the SABBIA bed could be fitted with a height-adjustment system. A LED lighting system under the bed makes it possible to combine the effects of chromotherapy with relaxing massage treatments. SABBIA can be used with the LUXo unit; ceiling mounted it can be used if the customer wishes. As well as relaxation, you can offer a natural, safe ISO Italia Group tan.

Length: 211 cm (83.2 in) - Height: from 68.5 cm (27 in) to 83 cm (32.6 in)
Width: 92 cm (36.1 in)
Weight*: from 160 kg (352 lbs) to 190 kg (418 lbs)
With sand: 250 kg (550 lbs)

CRYSTALS

Massage, relaxation, slimming

CRYSTALS is a salt bed that offers the operator various possibilities in terms of use (massage, relaxation, slimming).

CRYSTALS is the first wellness bed created so that the customers lie down on Himalayan salt crystals. Totally unique, it offers a fantastic sensation of relaxation and guarantees all the benefits of halotherapy. Himalayan salt, which is totally natural, free from additives and pollutants, is rich in natural substances, has extremely high bioenergetic values and contains all the minerals and trace elements the human body needs.

CRYSTALS reproduces the sea environment conditions: in fact, it contains 150 kg of salt that can be heated to a temperature of between 32°C and 40°C, depending on the method and program to be used.

Under the steel tub that contains the salt, there is a perfect safety and efficient coating system.

Chromotherapy and Halotherapy

The tub is surrounded by 30 bricks of salt that rest on a system of high-intensity LED lighting system so that chromotherapy can be used in conjunction with halotherapy. The boosted chromotherapy lighting, uniformly distributed around the entire perimeter of the bed, completely envelopes the user. A lighting completes the harmony of the environment where the bed is located in, creating points of light from under CRYSTALS to the floor.

The bricks of crystalline salt neutralize the electromagnetic frequencies present in the environment and the air acquires a positive charge with beneficial effects against nervous tension, insomnia, concentration difficulties and free radicals.

CRYSTALS can be fitted with a height adjustment system. Easy to position inside any beauty cabin, it can be used in conjunction with the LUXo tanning unit; fixed to the ceiling it can be used whenever the final user also wants a natural, safe ISO Italia Group tan.

Length: 212 cm (83.5 in) - Height: from 68.5 cm (27 in) to 81cm (31.8 in)
 Width: 92 cm (36.2 in)
 Weight*: from 160 kg (352 lbs) to 190 kg (418 lbs)
 With salt: 130 kg (286 lbs)

EQUILIBRIUM

Multifunctional table

The water massage bed EQUILIBRIUM is an exceptional tool of work, that allows unique massage techniques, but most of all, it offers to its users, an unforgettable emotional experience.

EQUILIBRIUM is provided with a water mattress but thanks to its optional it can be transformed into three diverse spa beds, a simple connection system, allows the replacement of the water mattress by the Himalayan salt or by Sand, completely transforming it, its functionality and the work protocols that can be offered to the customer.

EQUILIBRIUM is equipped with a hypoallergenic mattress, with communicating compartments, in order to avoid annoying “wave” effects, keeping the user, by whom practices the massage, in the desired position. Every small movement of the client on the water creates a series of “micro waves” that makes a continuous body massage favoring the venous return and the lymphatic circulation. Its powerful chromo-therapy system makes you feel like you’re “floating” on the color.

EQUILIBRIUM with Himalayan salt, is able to rebalance the body. The heat and the micro-massage practiced by its particles, further facilitates its capacity of interaction with the client, furthermore the salt takes the customer’s shape.

EQUILIBRIUM with Sand has the property to bring the body to a complete relaxation, creating a welfare sensation that accompanies the client during different beauty treatments. The warm quartz sand - from 32° till 40° - inside it, thanks to its chemical-physical characteristics, acts as a cleanser, disinfectant and alkalizing element, relaxes the muscles, the bones and the joints.

EQUILIBRIUM allows the operator to reach all the parts of client’s body thanks to a great facility of movement, its patent heating system is fast and safe and allows to regulate the bed temperature with great ease.

EQUILIBRIUM is equipped with a remote control, by means of which the environment can be illuminated by the customer’s desired color, or the one more proper for the treatment.

Both the maintenance and the cleaning are easy to be made. EQUILIBRIUM represents an innovative, leading edge technology that revolutionizes the way to make Wellness and it projects the “simple” massage toward an unforgettable multi-sensory experience.

If inside the environment there are other equipment of Iso Benessere line, the color of the light emitted by EQUILIBRIUM is coordinated by wireless so that, from every equipment is diffused light of the same color .

EQUILIBRIUM is available in two color combinations: natural wood colour and white or natural wood colour and Wengé.

Height: 77 cm (30.3 in) - Length: 199 cm (78.3 in) - Width: 83 cm (32.6 in)
 Weight: 100 kg (220 lbs)
 +150 kg (330 lbs) water
 + 210 kg (462 lbs) sand
 +110 kg (242 lbs) salt

ELYSIUM LINK

The solution by Iso Benessere for a complete treatment room.

ELYSIUM LINK is equipped with useful accessories which can be placed inside the structure, offering functionality and order to the space around. The 'storage' treatment table, has a portable open-drawer and an adjustable stool, with a comfortable upholstered seat. The central part is a closed space, which can contain any useful devices, lotions, oils... for treatments.

Huge comfort and workability

The generous dimensions of the soft mattress, which is 10 cm. in thickness, the face-hole and the adjustment system with 3 motors – upwards and downward table movement and positions of the seat – grant the high comfort of ELYSIUM LINK. Two motors are provided with the basic version and one is on demand. The remote control sets the back side, the height, and the legs side of the mattress and the positions can be saved for re-use. The heating system for the mattress (on demand) grants a pleasant relaxing session. Cleaning and maintenance are very easy and fast thanks to its structure and design.

Structure made of light

The LED RGB lights effect through the glazed Plexiglas strips which surround the frame, gives the idea to lay while floating on colors. The innovative chromo therapy system creates an atmosphere which involve all senses. The cabin can be enriched with the accessory CORNER LUX, a Plexiglass column combined with the ones in ELYSIUM table which can be fitted on the wall or on the ceiling. The cabin can be enriched with the accessory CORNER LUX, a Plexiglass column combined with the ones in ELYSIUM table which can be fitted on the wall or on the ceiling.

Lenght: 200 cm - Height: 93,5 cm
Width: 80 cm - Weight: 250 kg

ELYSIUM

Maximum comfort hanging in the light

ELYSIUM is the new bed by Iso Benessere for SPA and massage treatments. The stylish and modern design, the high comfort and the colored LED lights effect, create an emotional atmosphere in the whole room.

The comfort of ELYSIUM is granted by the generous dimensions of the soft mattress, which is 10 cm. in thickness; very practical the adjustment system with 3 motors – upwards and downward table movement and positions of the seat - two motors provided with the basic version and one on demand. The remote control sets the back side, the height, and the legs side of the mattress and the positions can be saved for re-use. The heating system for the mattress (on demand) grants a pleasant relaxing session. Cleaning and maintenance are very easy thanks to its structure and design. The soft shapes rounded facehole makes the prone position even more comfortable, patient can fully relax neck and shoulder muscles.

An unique emotional atmosphere

The LED RGB lights effect through the glazed Plexiglas strips which surround the frame, gives the idea to lay while floating on colors. The innovative chromo therapy system creates an atmosphere which involve all senses. The cabin can be enriched with the accessory CORNER LUX, a Plexiglass column combined with the ones in ELYSIUM table which can be fitted on the wall or on the ceiling.

Lenght: 200 cm - Height: 93,5 cm
Width: 80 cm - Weight: 200 kg

SPOT

The light panel for Chromotherapy

Designed for beauty centres massage and relaxation centres, the SPOT light panel with RGB LED technology, is the most functional chromotherapy lighting unit. Its limited weight, ease of anchoring to the walls and its modular structure makes it to create even very large panels of light. The various different chromotherapy programs available are controlled by a user-friendly remote control.

SPOT has also been designed by ISO Italia Group to be used in conjunction with massage beds such as SENSO, SABBIA, CRYSTALS, ACUA and FLAG. Synchronizing it with the chromotherapy lighting of the beds, thanks to a simple switching system, makes it possible to increase the effectiveness of sessions, saturating the entire beauty cabin with the colour selected. SPOT is also perfect as interior decoration. It can be customized with graphics and compositions.

Thanks to very low energy consumption, SPOT can be left on even during pauses, as an extremely attractive furnishing feature.

Lenght: 96 cm - Height: 51 cm
Weight: 10 kg

LUMINA

The Iso Benessere “equipped wall”, which customizes the spa. Each customer is looking for emotion and well-being, for this reason Iso Italia Group has decided to create an equipped wall, that could continuously transform every room by dressing it with light and color.

LUMINA is an equipped wall with a chromo therapy system, managed by a single remote control. Lighted on, LUMINA dresses the room with the chosen color by the customer, or with the color chosen according to the treatment to be made. The room in which LUMINA is positioned, can have a new color every day, and a different color for each client. The acrylic shelves are transformed into colored planes of light, highlighting everything leaning on it.

LUMINA is easy to install, clean and maintain. Basically it is provided with 5 shelves and 4 drawers. If in the same room, there are other Iso Benessere equipment, the color emitted by LUMINA is coordinated via wireless, so each equipment will simultaneously diffuse the same light color. It can be used in conjunction with SENSO, SABBIA, EQUILIBRIUM, SPOT, SENSO, CALIDO and any other Iso Benessere equipment.

Lumina can also be sold with sink, mixer tap and plumbing connections chromatic coordinated.

LUMINA is available in two color combinations: natural wood colour and white or natural wood colour and wengé.

Height: 220 cm - Length: 184 cm
Width: 44 cm - Weight: 130 kg

CALIDO

The multifunctional spa trolley CALIDO, thought for spa and wellness centers, meets all the functional requirements of the operator, creating a unique atmosphere inside the cabin, thanks to additional commands for chromo therapy.

CALIDO has a refrigerated drawer, to keep fresh the massage towels or beauty products. It is also provided with a compartment to heat the towels and one to heat creams, wax, stone, or similar things. CALIDO has a large supporting surface, thanks to a retractable shelf, that makes CALIDO “space saving” and at the same time very versatile.

Based on four wheels, for a perfect balance and easy handling.

With a remote control, CALIDO can light the room with the customer's desired color, or with the one more appropriate to the treatment.

Chromo Wireless

If in the same room, there are other Iso Benessere equipment, the color emitted by CALIDO is coordinated via wireless, so each equipment will simultaneously diffuse the same light color.

CALIDO is available in two color combinations: natural wood colour and white or natural wood colour and wengé.

Height: 85 cm (33.5 in) - Length: 60 cm (23.6 in)
Width: 73 cm (28.7 in) - Weight: 55 kg (121 lbs)

AERIUS

Upon completion of the emotional furnishing, manufactured in 2014, Iso Benessere launches AERIUS, a luminous element to provide a luminous ceiling, reminiscent of the spa-table EQUILIBRIUM, the spa-trolley CALIDO and the equipped wall LUMINA. Designed to enhance the whole aesthetic impact of the ceiling considered a vantage point of the client, lying on the couch during the spa-treatments.

A simple element that, thanks to its “fluid” shapes, with coordinated lighting of other furnishings, allows to “catapult” the guest in a parallel world of ecstasy and in a deep state of wellness.

AERIUS is available in two color combinations: natural wood colour and white or natural wood colour and wengé.

Length: 160 cm (62.9 in) - Width: 85 cm (33.4 in)
Weight: 20 kg (44 lbs)

HIMALAYAN CUBE

Design your spa room with the new HIMALAYAN CUBE

ISO Benessere presents the new HIMALAYAN CUBE, an innovative product for wellness and beauty centers, which wish to have an emotional and invigorating salt room in a new or already existing space. HIMALAYAN CUBE consists of a 'portable' Salis technique, which can be placed in a room for the salt treatment and it is surrounded with natural and precious Himalayan salt bricks, enlightened by Led lights which create a relaxing and peaceful atmosphere. The built-in music and aromas diffuser functions, will make the stay of the customers even more pleasant and enjoyable. HIMALAYAN CUBE may create an emotional and unique atmosphere in relaxing open areas, with its aroma diffuser function, combined with music therapy and chromotherapy. Thanks to all its wellness-functions and the easy and simple way to place it, it will be an essential and precious piece of furniture that can be combined with our Himalayan salt walls to enrich your spa.

The benefits of halotherapy

Halotherapy is a totally natural method based on the nebulization of micro particles of crystalline salt, which reproduces the sea environment conditions, typically present on beaches. The antibacterial and anti-inflammatory action of these saline micro particles boosts the immune system and eliminates muscle tension, stress and prevent the formation of spots, pimples and blackheads. Furthermore, the steam enriches the skin with iodine, a substance that accelerates the metabolism and helps natural weight loss.

Just a touch

The simple, user-friendly control panel means it is possible to set the desired characteristics of the environment: room temperature and humidity level can be adjusted with a touch and set at the degree and time at disposal. Music, chromotherapy and aromas, complete this fantastic wellness offer and can be controlled from the display by the operator or by the customer.

Design solutions

By combining HIMALAYAN CUBE with Himalayan salt wall or with Salis salt cabin by Iso Benessere, you will create an harmonious and designed space of great effect.

Height (excluded tube of steam emission): 79,5 cm - Length: 80 cm
Depth: 60 cm - Weight: 200 Kg

SALIS

Halotherapy

More commonly known as salt therapy, is a totally natural method based on the nebulization of micro particles of crystalline salt, which reproduces the sea environment conditions, typically present on beaches. The antibacterial and anti-inflammatory action of these saline micro particles boosts the immune system and eliminates muscle tension and stress.

SALIS advantages

First of all, it can be used by people of all ages - even children - there are no contraindications. The micro particles sprayed into the grotto penetrate the skin and enrich it with mineral salts and trace elements that make it stronger, also exercising a bacterial action that hinders the formation of spots, pimples and blackheads.

SALIS, the salt room tailor-made for every centre.

It is important to specify that the SALIS salt room consists in a series of modular components and can therefore, be created of the size desired by the client depending on the space available. Its self-supporting structure can be installed anywhere. The simple, user-friendly control panel means it is possible to program the desired characteristics of the environment: the temperature and humidity levels can be adjusted at a touch. Music, chromotherapy and aromas complete this fantastic wellness offer, destined to become a key appointment for even the most demanding users.

The specific characteristics of SALIS

- Easy to install and without the need to carry out any work in loco; it is thus possible to eliminate the problem of corrosive residues on metal structures, inevitable when the salt, in the bricks or spray, are processed in loco.
- Easy to maintain (there's no flooring to the salt and the walls are easy to remove for inspection and maintenance).
- Easy to clean.
- Adjustment of the vaporizer using the electronic card to personalize music therapy cycles, concentration of salt spray, chromotherapy and aromas.
- Easy to customize (painting of the supporting structure, which is white in).
- No connections required, thus making it easy to move.
- Does not require an operator. Extremely low running costs, low energy consumption and high earning power.

HIMALAYA WALL

Halotherapy and Chromotherapy

Designed for highly-effective wellness sessions and maximum relaxation, the wall of salt offers the important benefits of halotherapy combined with chromotherapy. The pure Himalayan salt of its bricks neutralizes electromagnetic frequencies and charges the water molecules in the room with positive energy, providing beneficial effects against nervous tension, insomnia, difficulties in concentration and free radicals. The rows of light behind the columns of bricks, created using an RGB LED lighting system - for an overall power of approximately 80W - are remote controlled, making it easier to monitor the chromotherapy programs.

Powered chromotherapy

If the wall of salt is activated in conjunction with an Iso Benessere bed, an optional adaptor makes it possible to match the colors of the bed to those of the light wall, powering the beneficial effects of chromotherapy and creating a charming habitat.

Height: 219 cm (86.2 in) - Depth: 12,6 cm (4.9 in)
Width: 101,5 cm (39.9 in) - Weight: 270 kg (594 lbs)

FLAG

Iso Benessere chaise longue

Its sinuous lines were developed specifically for rest and to follow the body in a state of relaxation, immersed in colour. FLAG has a steel structure treated with a cataphoresis process and painted with a rustproof powder finish, resistant to water and damp, with plexiglas inserts to transmit the desired colour into the Surroundings.

Its anatomic seating support is upholstered and in ecological leather, no allergic and stain-proof. FLAG follows a perfect curve, comfortable and relaxing, designed for wellness areas, beauty salons, wet areas at health spas and swimming pools. Its compact dimensions, with a length of just 160 cm and a width of 60 cm, allow it to be easily positioned in any space. FLAG incorporates an innovative RGB lighting system capable of creating an atmosphere of colors that can be customized in intensity and for cycle changes, so as to offer an avant-garde chromotherapy instrument that can be easily connected and coordinated with the other chromotherapy systems used in the space.

An optional massage device inserted inside the seat can further enhance the relaxation and emotions of this fabulous chaise longue. All these characteristics make FLAG unique and ideal for all situations and places where wellness and relaxation are fundamental.

Length: 160 cm (63 in) - Height: 90 cm (35.4 in)
Width: 60 cm (23.6 in) - Weight: 45 kg (99 lbs)

NOTE

The vibro musical chaise longue

NOTE is the new vibro musical chaise longue that combines welfare harmonic vibrations of music, Chromotherapy and heat.

NOTE, with an innovative acoustic speaker system, is able to create a sound emission over the entire body of the user, dividing and alternating tones and frequencies on specific areas for an emotional experience like no other.

A comfortable position, makes it extremely pleasant sitting, wrapped in a heat wave that relaxes the muscles. The music envelops the mind and its vibrations pervade the body of harmonious and rebalancing waves.

A skillful chromotherapy restores beneficial energy to the body.

Sitting on NOTE creates a complete physical and mental balance, total relaxation, a strengthening of the physiological functions at all levels, with a deep interaction with our Subtle Energies.

Length: 160 cm (63 in) - Height: 90 cm (35.4 in)
Width: 60 cm (23.6 in) - Weight: 45 kg (99 lbs)

ARCUS

The chaise longue with air mattress by ISO Benessere is an element of great impact: the customer is cradled in the air and colors.

With its fascinating and sinuous lines, ARCUS offers unique wellness emotions.

The hypoallergenic air mattress with connected compartments, is designed to avoid the collapse of the seat and offers a total comfort and extremely light sensation to the user.

ARCUS is equipped with RGB lighting system, colors and lights effects create a pleasant atmosphere. Innovative chromotherapy system can be easily connected and synchronized with other Iso Benessere equipment. The heating system of ARCUS, optional, is fast and safe and can heat the entire seat by setting easily the desired temperature. The combination of color and design, makes ARCUS a unique chaise longue with the enormous relaxing power suitable for all centers such as wellness centers, beauty salons, hotels, spa, waiting room and swimming pools.

Length: 135 cm - Height: 110 cm
Width: 80 cm - Weight: 60 kg

ALIA

The relaxing bed by Iso Benessere offers a complete mental and physical relaxation.

As the Relax Area is a dynamic and inclusive part of the wellness path, ALIA is the perfect instrument for a mid or final step during a treatment course that counters the effects of stress and anxiety, relieving physical and mental stress. ALIA offers a unique relaxing and emotional experience, fully surrounded by colors and warm.

ALIA is available in three different versions: with water mattress, with Himalayan Salt or with Quartz sand. ALIA with hypoallergenic water mattress: each small movement of the client generates a series of micro-waves as a continuous massage on the body, stimulating lymphatic and blood circulation. ALIA with Himalayan salt is a rebalancing treatment for wellbeing. Heat and micro-massage of the salt, improves the benefits of this natural mineral element. ALIA with Quartz sand has a relaxing power. Thanks to the chemical-physical composition, the warm Quartz - from 32° to 40°C – has an disinfectant and alkalizing action and releases muscles, bones and joints.

ALIA is equipped with an advanced RGB lighting system with remote control, so that colors and lights are all around the bed and enlighten the room. A secure and fast built-in heating system allows to set the desired temperature according to the optional (water mattress, salt or sand). Color synchronization system is available with spa-beds, furniture and salt walls of ISO BENESSERE line.

ALIA is designed for different environments such as wellness centers, beauty salons, hotels, spa, relax areas and swimming pools.
